360° Panoramic View and Intuitive PTZ Control

These revolutionary models, which integrate the utility of fisheye lens with a 20x / 30x zoom module, allow users to achieve 360° panoramaic view without losing any detail while simultaneously able to perform pan / tilt / zoom on specific points of interest with a simple click of the mouse. To facilitate tracking, PPTZ series are equipped with an advanced zoom module to automatically track moving objects within the range of view.
