

## GV-Multi Quad Card

### INTRODUCTION

GV Multi-Quad card is a TV surveillance solution that provides visual alerts for monitoring of casinos, supermarkets, shopping malls, on the perimeter of a stadium or airport, etc. It is built in with a programmable analog video output and a video matrix, which facilitates spot monitoring of multiple critical areas. The GV Multi-Quad supports a main monitor displaying up to 16 live streaming video feeds, and 4 call monitors displaying separately with up to 4 camera feeds. When the camera detects motion or the burglar alarm device is triggered, a live image pop-up will appear in the main or call monitors for alarm notification. The Multi-Quad TV surveillance solution is recommended for use in security rooms and management offices.

### APPLICATIONS

- Central Monitoring Station
- Traffic Control
- Tunnel
- Casino
