Upgrade Your Facility's Security

Surveillance Made Easy, with Direct-to-Cloud Cameras
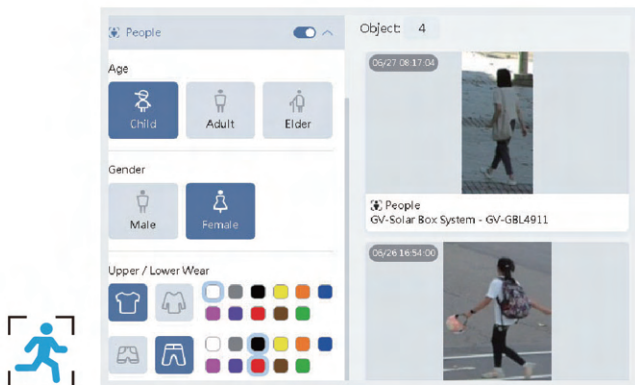

Cloud

Direct-to-cloud cameras offer microSD or premium cloud storage. The GV-GEBF4911 features event-triggered onboard sirens and lights for security. All models support AI search to identify specific details, such as gender or clothing color.

| Cloud VMS | Flexible Storage | Pre-recorded Audio Alert | 4MP High Resolution |

AI Attribute Search

Utilize AI Search to identify specific visual details in images and videos, including age categories, gender, clothing colors and types (upper/lower wear), vehicle types, vehicle colors, and brands.

Human Trait Detection

Vehicle Attribute Recognition
